Breakdown Dennis McConaghy, 2019-08-31 2019/20 The Donner Prize — Winner Is a national consensus on hydrocarbon development possible? The ongoing debate in Canada over the extraction of hydrocarbon resources and their transportation to markets exemplifies the country's political polarization. Breakdown explores these tensions through economic, environmental, and political perspectives. The Trudeau Liberals and Alberta's one-term NDP government attempted to find a compromise that satisfies the concerns of British Columbia, Canada's First Nations, and environmentalists. But they still could not break the impasse on the Trans Mountain Pipeline expansion. With new players now at the table, can Canada find a reasonable path forward?

The Indigenous Paleolithic of the Western Hemisphere Paulette F. C. Steeves, 2021-07 2022 Choice Outstanding Academic Title *The Indigenous Paleolithic of the Western Hemisphere* is a reclaimed history of the deep past of Indigenous people in North and South America during the Paleolithic. Paulette F. C. Steeves mines evidence from archaeology sites and Paleolithic environments, landscapes, and mammalian and human migrations to make the case that people have been in the Western Hemisphere not only just prior to Clovis sites (10,200 years ago) but for more than 60,000 years, and likely more than 100,000 years. Steeves discusses the political history of American anthropology to focus on why pre-Clovis sites have been dismissed by the field for nearly a century. She explores supporting evidence from genetics and linguistic anthropology regarding First Peoples and time frames of early migrations. Additionally, she highlights the work and struggles faced by a small yet vibrant group of American and European archaeologists who have excavated and reported on numerous pre-Clovis archaeology sites. In this first book on Paleolithic archaeology of the Americas written from an Indigenous perspective, *The Indigenous Paleolithic of the Western Hemisphere* includes Indigenous oral traditions, archaeological evidence, and a critical and decolonizing discussion of the development of archaeology in the Americas.

The Ku Klux Klan in Canada Allan Bartley, 2020-10-13 The Ku Klux Klan came to Canada thanks to some energetic American promoters who saw it as a vehicle for getting rich by selling memberships to white, mostly Protestant Canadians. In Ontario, Saskatchewan, Alberta and British Columbia, the Klan found fertile ground for its message of racism and discrimination targeting African Canadians, Jews and Catholics. While its organizers fought with each other to capture the funds received from enthusiastic members, the Klan was a venue for expressions of race hatred and a cover for targeted acts of harassment and violence against minorities. Historian Allan Bartley traces the role of the Klan in Canadian political life in the turbulent years of the 1920s and 1930s, after which its membership waned. But in the 1970s, as he relates, small extremist right-wing groups emerged in urban Canada, and sought to revive the Klan as a readily identifiable identity for hatred and racism. The Ku Klux Klan in Canada tells the little-known story of how Canadians adopted the image and ideology of the Klan to express the racism that has played so large a role in Canadian society for the past hundred years — right up to the present.

The Longest Year Daniel Grenier, 2017-03-25 F. Scott Fitzgerald's "The Curious Case of Benjamin Button" meets Junot Diaz's *The Brief Wondrous Life of Oscar Wao* in Daniel Grenier's epic novel, which tells the story of a boy who ages only one out of every four years. There's something extraordinary about Thomas Langlois. Thomas is a young boy growing up in Chattanooga, Tennessee, with a French-Canadian father, Albert, and an American mother, Laura. But beyond the fact that he lives between two cultures and languages, there's something else about Thomas that sets him apart: he was born on February 29. Before Albert goes on a strange quest to find out more about their mysterious relative, Aimé Bolduc, he explains to Thomas that he will only age one year out of every four and he will outlive all of his loved ones. Thomas's loneliness grows and the years pass until a terrible accident involving a young girl sets in motion a series of events that link the young girl and Thomas to Aimé Bolduc — a Civil War-era soldier and perhaps their contemporary. Spanning three centuries and set against

the backdrop of the Appalachians from Quebec to Tennessee, *The Longest Year* is a magical and poignant story about family history, fateful dates, fragile destinies, and lives brutally ended and mysteriously extended.

The Equity Myth Frances Henry, Enakshi Dua, Carl E. James, Audrey Kobayashi, Peter Li, Howard Ramos, Malinda S. Smith, 2017-06-22 The university is often regarded as a bastion of liberal democracy where equity and diversity are promoted and racism doesn't exist. In reality, the university still excludes many people and is a site of racialization that is subtle, complex, and sophisticated. While some studies do point to the persistence of systemic barriers to equity in higher education, in-depth analyses of racism, racialization, and Indigeneity in the academy are more notable for excluding racialized and Indigenous professors. This book is the first comprehensive, data-based study of racialized and Indigenous faculty members' experiences in Canadian universities. Challenging the myth of equity in higher education, it brings together leading scholars who scrutinize what universities have done and question the effectiveness of their equity programs. They draw on a rich body of survey data, interviews, and analysis of universities' stated policies to examine the experiences of racialized faculty members across Canada who – despite diversity initiatives in their respective institutions – have yet to see meaningful changes in everyday working conditions. They also make important recommendations as to how universities can address racialization and fulfill the promise of equity in higher education.

Screen Deep Ellen E. Jones, 2024-01-30 Screen Deep is a book about the immense potential of screen storytelling to defeat an evil both historic and urgently topical: racism. Everyone watches TV and movies. Everyone has an interest in building a more just and equitable world. Screen Deep goes beyond the many film books and anti-racist manuals by demonstrating the connection between these two aspects of modern life. In Screen Deep Ellen E. Jones combines her personal experience as a mixed-race woman who cares about racism with her professional expertise as a film and TV journalist of twenty years standing, to ask - and answer - several questions: Is there such a thing as an Indigenous western?

Is race comedy 'cancelled'? Where are all the films for white people? And most importantly: Can you still fight the good fight with a mouthful of popcorn?

Permanent Campaigning in Canada Alex Marland,Thierry Giasson,Anna Lennox Esselment,2017-06-28 Election campaigning never stops. That is the new reality of politics and government in Canada, where everyone from staffers in the Prime Minister's Office to backbench MPs practise political marketing and communication as though each day were a battle to win the news cycle. *Permanent Campaigning in Canada* examines the growth and democratic implications of political parties' relentless search for votes and popularity and what constant electioneering means for governance. With the emergence of fixed-date elections and digital media, each day is a battle to win mini-contests: the news cycle, public opinion polls, quarterly fundraising results, by-elections, and more. The contributors' case studies reveal how political actors are using all available tools at their disposal to secure electoral advantage. This is the first study of a phenomenon – including the use of public resources for partisan gain – that has become embedded in Canadian politics and government.
